Professional Summary

Results-driven **Python Fullstack Developer** and MCA Graduate specializing in building end-to-end web applications using **React.js** and **Node.js**. Proven ability to develop responsive frontend interfaces and high-performance backend services. Strong background in database architecture and technical operations, focused on delivering scalable, secure, and user-centric software solutions.

Technical Skills

- **Frontend Development:** React.js, JavaScript (ES6+), HTML5, CSS3.
- **Backend Development:** Node.js, Python (Django/Flask), RESTful APIs.
- **Databases:** SQL, DBMS, MongoDB.
- **Cloud & DevOps:** Google Cloud Platform (Kubernetes, DevOps Workflows), Git, GitHub.
- **Specialized Domains:** Cyber Security, Industrial IOT, MIS, Data Validation.
- **Tools:** VS Code, MS Office Suite, Photoshop, DaVinci Resolve.

Professional Experience

Cognifyz Technologies   October 28, 2025 – December 20, 2025
Frontend Development Internship   Remote

- Engineered responsive and interactive web components using **React.js** and modern CSS architectures.
- Collaborated on UI/UX optimizations to enhance accessibility and cross-browser performance.
- Developed reusable frontend modules to increase development efficiency and maintain code quality.

KFintech (KFin Technologies Ltd.)   March 2024 – August 2025
Associate, CPZ Operations   Bhubaneswar, Odisha

- Managed mission-critical banking operations and financial data validation with 100% accuracy.
- Leveraged **SQL** for complex data retrieval and database management within the financial transaction cycle.
- Ensured regulatory compliance through meticulous objection handling and maker-checker processing.

Concentrix   April 2023 – December 2023
Operations Representative - Tech Support   Bhubaneswar, Odisha

- Delivered specialized technical email support for Blockchain and Cryptocurrency inquiries on the CoinDCX platform.

Technical Projects

Movie Discovery & Download Platform

- **Tech Stack:** React.js, Node.js, SQL, HTML5, CSS3.
- Built a full-stack movie application for metadata browsing and direct download link generation.
- Integrated a **Node.js** backend with a **SQL** database for optimized data storage and high-speed retrieval.
- Implemented a mobile-first, responsive frontend using **React.js** to ensure a seamless cross-platform user experience.

Education

Master of Computer Applications (MCA) | Raajdhani Engineering College	2025
PGDCA | Infor World Academy	2022
Bachelor of Science (B.Sc) | Bijupattnayak Degree College	2021

Certifications

- **IIT Madras:** Cyber Security and Privacy.
- **IIT Kharagpur:** Industrial Internet of Things 4.0 & Management Information Systems.
- **Google Cloud:** Skill Badges in DevOps Workflows, Kubernetes, and App Dev Environment.
- **Google Intensive:** 5-Day AI Agents Intensive Course.
